

# CRUISE CENTER MIAMI

## The leader in passenger ship services

DNV is dedicated to the cruise industry and continuously strives to improve the industry’s performance and sustainability. Performance is the key success factor on all levels for competitive offshore sailing. This is also valid for the international cruise industry where non-performance is not an alternative. Collaborating with DNV will help you improve your business performance in a sustainable way.

### OUR SERVICES

#### Working with DNV

DNV ensures high performance through collaboration with the cruise industry to achieve common goals for safety, quality and efficiency. High performance sailing has clear parallels to high performance cruise operations. Goals must be achieved on time with safety as a first priority.

Our local experts supported by our global network, have the essential background in all the relevant requirements, regulations and standards.strategies, looking at technical, procedural and behavioural aspects.

#### DNV on cruise

DNV is the leading provider of high quality services to the cruise industry and works closely with owners,designers, yards, managers, manufacturers, flag states, port states, training providers and other stakeholders in the cruise industry.

Complexity, uncertainty and change are prevalent within all business functions. As a consequence, the risk profile of every enterprise constantly changes and evolves.

DNV can help identify, understand and manage each of the component risks, as well as the overall aggregate risk, in order to maximize opportunities and avoid or mitigate losses.
